Credit from net cash available in the Special Account for UNMIS as at 30 April 2015	69/303 of 25 June 2015	(14 972 600)	(14 972 600)

1. The amount authorized by the General Assembly, as indicated in the table above, was apportioned among Member States in accordance with the provisions laid out in section I.B below and is shown in section II.

B. Apportionment of the costs of peacekeeping operations

2. The General Assembly, pursuant to its resolution 55/235, decided that, beginning on 1 July 2001, "assessment rates for the financing of peacekeeping operations should be based on the scale of assessments for the regular budget of the United Nations, with an appropriate and transparent system of adjustments based on levels of Member States". Under this system, Member States were assigned to 1 of 10 "levels" to facilitate automatic, predictable movement between categories on the basis of the per capita gross national product (GNP) of Member States. Discount rates were applied to eight of the different levels based on the parameters set forth in the resolution. Countries in level B are assessed at the same rate as for the regular budget. Member States other than those assigned to levels A, C and J were assigned to levels based on their per capita GNP, subject to transition periods and unless they indicated a decision to move to a higher level. Member States and levels are set out in resolution 55/235, as adjusted in resolutions 55/236 and 57/290 A.

3. The five permanent members of the Security Council form a separate level (level A) and all discounts resulting from adjustment to the regular budget assessment rates of Member States in levels C through J are borne on a pro rata basis by the Member States in level A, which are assessed at a higher rate than for the regular budget. Member States designated as least developed countries are assigned to level J and receive the highest discount percentage, that is, 90 per cent. They therefore pay 10 per cent of their assessment rates established for the regular budget. Countries in level C are specified in resolution 55/235.

4. By its resolution 64/248, the General Assembly adopted the scale of assessments for the period from 2010 to 2012. The composition of levels of contribution for peacekeeping operations was also updated for the period from 2010 to 2012 by the Assembly in resolution 64/249 and the corresponding rates of assessment are contained in the addendum to the report of the Secretary-General on the implementation of Assembly resolutions 55/235 and 55/236 (see A/64/220/Add.1, annex). The percentage shares shown in section II below demonstrate the results of the application of the latest resolutions.
